

University Hospital

University Hospital (Front entrance)

The University Hospital is not only an educational and research facility, but it is also the core health care facility in the community. The hospital makes full use of its medical capabilities through an abundance of knowledge that covers each medical discipline and the most up to-date medical equipment. In 1994 it was designated as a Specific Function Hospital, and as a hospital that takes on a leadership role in the community, we shall continue to strive to further our efforts to contribute to society. Furthermore, while we are actively trying to fulfill our role in training excellent medical staff and furthering medical research through providing adequate, high-quality, advanced medical care in an medical environment where patients can feel secure, we are also taking on a role central to community healthcare and healthcare related activities. We also strive to further our contributions globally.

<Hospital Guide>

〈Number of Patients (Admitted and Outpatient) by Department〉 FY2018

Department	Admitted		Outpatient	
	Total number	Average number of patients per day	Total number	Average number of patients per day
